Google Chrome OS, Google Play	Standard OPS JAE 80 pin compatible with most interactive monitors	
Google admin, security & updates		
Kiosk mode		
Vertical mode		
Intel Core i3-1315U		
UHD 4K		
8Gb RAM, 256 Gb SSD		
WiFi 6E		

Use Google Workspace on an interactive monitor with all the advantages of ChromeOS.

Remote management of interactive monitors on a massive scale

View digital books directly in the Chrome browser

No need to learn new user interfaces

Mass management from the administration console

Google Workspace allows you to set the OPS module as a management target.

Configure the management of bookmarks and other parameters from the network at the same time.

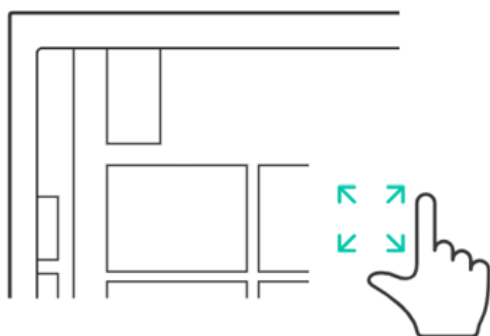

Possibility of remote support.

Use the Chrome browser directly

Present your content (resources, digital textbooks etc...) on the interactive monitor directly from the Chrome browser.

No need to learn new processes

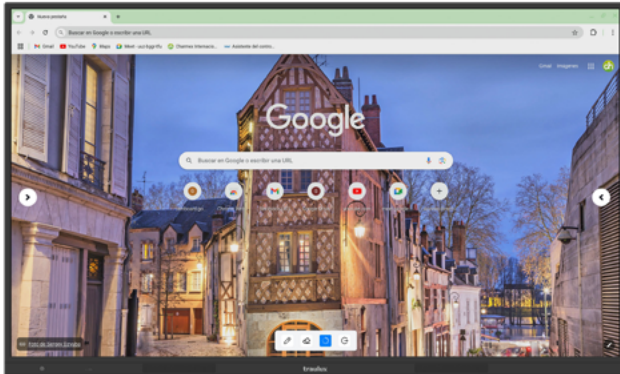

Unify the user experience and avoid the learning curve: all ICT devices under the same ecosystem.

The MIRAITOUCH OPS has the same user interface as a Chromebook.

Even for new Chrome OS users the experience is very intuitive and easy.

ChromeOS Features

01. Ease of use

- Intuitive touch-screen operation.
- Turn on and use ChromeOS
- Same user interface as a Chromebook™.
- The content can be presented on a large interactive

02. Flexibility and scalability

- Install your favorite applications from the Google Play Store
- Device enrollment and policy enforcement through the management console.
- Compatible with external devices (cameras, videoconference bars, microphones...).

03. Security and support

- Maximum safety.
- Google certified device guaranteeing full compatibility.
- The operating system is automatically updated to the latest version.

Compatible with Google Play Store

Search and download apps from the Google Play Store to use in your classes or presentations in an interactive way.

Digital signage and interactive kiosks

With the Chrome Enterprise or Kiosk & Signage license set up a horizontal or vertical display blocking the ability to exit a single application.

Digital textbook support

Fully compatible with digital book requirements! You can display textbooks and type directly in 4K quality in Google Chrome browser.

Supports videoconferencing*

***Google Meet only**

Use it for remote classes, school broadcasts and other tools.

Google Admin device management

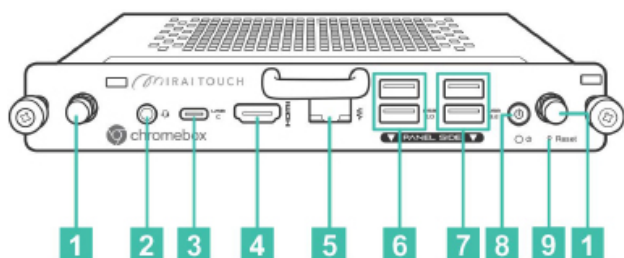

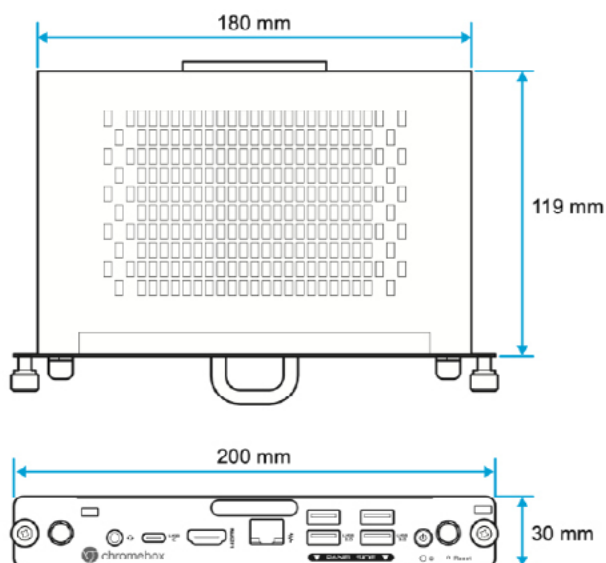

The interactive monitor can be rolled into Google's management console for complete management, from Wi-Fi settings to bookmark logging, just like a Chromebook.

ChromeOS Certified

MIRAITOUCH is officially certified by Google's Operational Certification List. It also supports distributing the latest update information and adding features. Same support as a Chromebook.

***ChromeOS, Google Keep, Google Docs, Chromebook, Google Jamboard, Google Meet, Google Drive, Gmail, Google Calendar, Google Maps, Google Groups, Google Presentations, Google Spreadsheets and Google Sites are trademarks of Google LLC.**
