

## M2 Dock – A Designer Docking Solution for the Modern Workspace

### The Dock You Actually Want on Your Desk.

Although docking stations and connection panels are not new concepts, the combination of a captivating design alongside powerful docking technology is. The mediahub2 Dock represents the perfect union of these two principles – State-of-the-art docking, combined with a top-tier aesthetic.

With the M2 Dock, we have blended technology and elegant, practical design to improve workspaces both technically and ergonomically. The

simplicity of the user interface, with its one-cable connection, the choice of colours to subtly match interior design choices and the multiple mounting methods ensure that the M2 Dock is in command, but does not overwhelm the space. All these factors contribute to the workspace's intrinsic functionality and produce an inviting working environment.

In short, with the M2 Dock, you actually want to get to work.

### UltraWide Performance

The display technology inside the M2 Dock is powerful. In MST mode, up to two full 4K screens can be used. Using the single HDMI 2.1 port, Ultrawide 21:9 5K is supported or even 8K, meaning this dock supports Ultrawide monitors and could even suit a 5K meeting room scenario.

### Intelligent Port Layout

Less is more with the M2 Dock. The user facing side is clearly labelled and intuitive – a single connection point for the laptop and a second user port for a headset, pen drive or other peripheral. At the rear and out of reach of the user are the fixed connections: Gigabit Ethernet, dual 5Gbps device ports, dual HDMI ports and a 100W Power Delivery port. Everything you need – no more no less.

### Designed for Large Scale Deployment

Utilizing the mediahub2 flexible workspace concept, this Dock is made for large scale deployment. Flexibility in mounting, a range of colours, and its solid durable construction mean the same product can be used in multiple scenarios. Most important of all though, the technology it uses will stay relevant for years to come. The result? A much greater return on investment for your installation.

### Premium Hybrid Workspace

The M2 Dock is an elegant docking solution for when style and aesthetics matter. Ideal for fixed installation in high-end hot-desking, executive offices or even for home office. Its subtle clean design sits well in any environment while the one cable connection means you instantly have complete control over the space.

### Varied Mounting Options

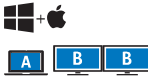

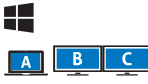

With its ergonomical angled lip and non slip feet, The M2 Dock is out of the box ready to sit securely on any desk. However for more secure mounting, two slots on the rear panel enable the on-table desk clamp, on-wall bracket and under-table/under-shelf mount to be fitted in a number of ingenious ways. All mounts include cable management and quick-release/install mechanism for ultra fast deployment.

### Colours to Match Your Scheme

Available in classic Black and White and contemporary Space Grey, the M2 Dock will complement the aesthetic of most environments. To add an extra flair of individuality or even match your company design profile, the front „Rim“ of the enclosure is magnetically secured and can be quickly replaced with the colour of your choice - a simple and easy way to add a unique accent to your work space.

## Connection Overview

### Supported Screen Resolution with Respect to DP Alt-Mode Specification

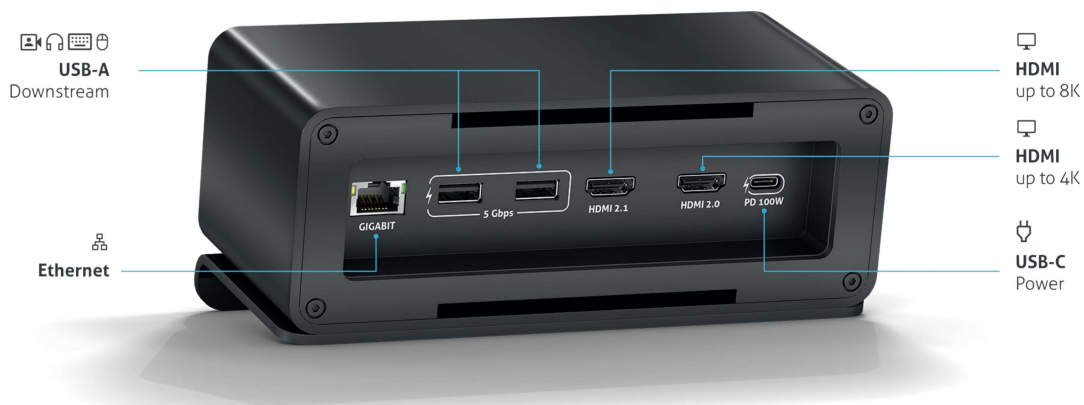

Display Mode	Maximum resolution with DP 1.4 with DSC 1.2		Maximum resolution with DP 1.4 without DSC 1.2		Maximum resolution with DP 1.2	
	Port 1 HDMI 2.1	Port 2 HDMI 2.0	Port 1 HDMI 2.1	Port 2 HDMI 2.0	Port 1 HDMI 2.1	Port 2 HDMI 2.0
 	7680 x 4320 30Hz	⊗	3840 x 2160 60Hz	⊗	3840 x 2160 30Hz	⊗
	⊗	3840 x 2160 60Hz		3840 x 2160 60Hz	⊗	3840 x 2160 30Hz

	⊗	3840 x 2160 60Hz	⊗	3840 x 2160 60Hz	⊗	3840 x 2160 30Hz
	3840 x 2160 60Hz	3840 x 2160 60Hz	3840 x 2160 60Hz	3840 x 2160 60Hz	3840 x 2160 30Hz	3840 x 2160 30Hz
	3840 x 2160 60Hz	3840 x 2160 60Hz	3840 x 2160 30Hz	1080P 60Hz	1920 x 1080 60Hz	1920 x 1080 60Hz

## Front view

For simplicity, the front side of the docking module has only two ports, one for your laptop and one extra SuperSpeed USB-C user convenience port for headphones, USB sticks or even charging your phone etc.

## Rear view

The rear side is designed for devices that are permanently connected, such as monitors, USB dongles, cameras etc.

## M2 Dock Range Product Overview

Art. No.	Description	Input	Output	Net MSRP
 <b>M2-ENC07-9940</b>	mediahub2 – 7-slot free-standing on-table design – <b>Black</b> housing and integrated matte-black dual screen Alt-Mode docking module	1x 10Gbps host port (USB-C)	1x HDMI 2.1, 1x HDMI 2.0, 3x USB 5Gbps device port (2x USB-A, 1x USB-C), 1x Ethernet (RJ45), 1x 100W PD injection port (USB-C)	<b>199,00 €</b>
 <b>M2-ENC07-9941</b>	mediahub2 – 7-slot free-standing on-table design – <b>White</b> housing and integrated matte-white dual screen Alt-Mode docking module	1x 10Gbps host port (USB-C)	1x HDMI 2.1, 1x HDMI 2.0, 3x USB 5Gbps device port (2x USB-A, 1x USB-C), 1x Ethernet (RJ45), 1x 100W PD injection port (USB-C)	<b>199,00 €</b>
 <b>M2-ENC07-9942</b>	mediahub2 – 7-slot free-standing on-table design – <b>Space grey</b> housing and integrated matte-black dual screen Alt-Mode docking module	1x 10Gbps host port (USB-C)	1x HDMI 2.1, 1x HDMI 2.0, 3x USB 5Gbps device port (2x USB-A, 1x USB-C), 1x Ethernet (RJ45), 1x 100W PD injection port (USB-C)	<b>199,00 €</b>
