NovoConnect
Simple. Guaranteed.

Wireless Collaboration in Every Classroom

NovoCast is a wireless collaboration device that enables instant content sharing on the main display. It allows up to 4 students to show content simultaneously to a larger display screen from any personal device, while up to 40 participants can be connected. The optional LauncherPlus enables to moderate sessions by controlling what is displayed on the screen. NovoCast offers presentation flexibility for smaller classrooms or teaching spaces.

Features

- Split screen sharing, present up to four screens simultaneously
- Connect up to 40 students to a classroom session
- Quizzes with real time polls
- Document sharing through the NovoConnect Software/App

- Optional LauncherPlus for moderation
  - Screen annotation function to highlight documents and discussion points in real time
  - Device screen preview allows to evaluate content before sharing to the main display
  - Capture screenshot to evaluate progress of individual work
  - Lock mobile devices function
- Easy network integration and central control with the Remote Manager software
- Dual network setup (i.e. separation of teacher network and school student network)
- Password protected configuration and PIN code protection
- ISO 27001 compliance
