VISUAL INTELLIGENT CONTROL PLATFORM(VICP)

FULL-SCENE VISUAL CONTROL

Real-time display of ET series, AvoIP PD3 series and H series input preview, monitoring, layout etc.; and it can switch media program, scene and signal source with one-click. Also support IPC preview and one-click PTZ Control.

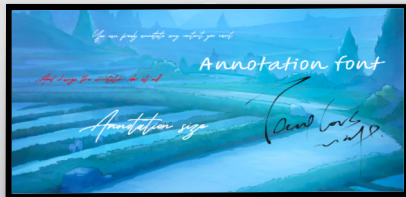

OSD OVERLAY

Add text, time, weather, and key information as an on-screen overlay across distributed displays.

ANNOTATION

Annotate content in real time from a touch panel or tablet, with markups instantly displayed across the main screen.

ENVIRONMENT MANAGEMENT SYSTEM

Customize control logic to manage lighting, audio, power, and third-party environmental devices from one VICP interface.

COMPONENTS OF THE SYSTEM

AvoIP PD3 Series

PD3-2K / 4K
